Cork Radio Club

Cork Radio Club intends holding classes for the coming year. If you are interested, contact Dick Bermingham EI6HH at 021-4545154.

Packet Radio News

The past few years have seen a decline in packet operation and it was often the case of unreliability and breakdowns causing users to lose interest.

Now that the long dark evenings are upon us it could be a good time to Dust off that old TNC and give the packet system another look. This past year has seen a lot of effort put into improving the packet network in the southeast by John EI8JA, John EI7IG and John EI3DIB. Mail is regularly sent and answered in less than a day.

Packet is not the same and never will be the same as the Internet but it has its place and it is part of our hobby so why not try the new improved system?

Please note that the Waterford and Tipperary systems WRC2, WITIP and EI3DIB can be found on 144.850 MHz, Node links are fully operational with full back-up paths in place, long breakdowns should be only a distant memory.

IRTS Committee Meeting

The next committee meeting of the IRTS will take place on Saturday the 11th of November 2000 at 11.00am in the Shamrock Lodge Hotel, Athlone. Clubs are reminded that they may send representatives to this meeting.

North Wales Rally

The North Wales Rally which is popular with many east cost EI operators will take place in Llandudno over the weekend of the 4th and 5th of November.

Mount Mellary Scout Station

The Scout Centre at Mount Melleray was again the venue for the Scout Jamboree on the air. The centre put on a

truly amazing display of transmitters and receivers. Local people were intrigued by the appearance of a huge crane in the car park at the Centre, which held the antennas. The station was used to speak with Scouts in Kalgoorlie - Western Australia, Toyko - Japan, Iceland, Cook Islands and Greenland as well as most north European countries. The stations were operated by Pat EI9EZ, Ger EI8HT and David EI7FYB using CW, SSB and Packet. Jim EI8IG also put on a demonstration of fast scan television.

The Scouts in the Centre were mainly from the Diocese of Cork and Ross. This worldwide event has been growing in popularity over the years, somewhere in the region of 2 million scouts were active on the airwaves for the weekend.

Phase 3D New Launch Date Announced

AMSAT's Phase 3D satellite should be sent into orbit on board a European Space Agency Ariane 5 Booster on Tuesday, November 14th from the ESA spaceport in

French Guiana. The launch had been delayed as the result of problems with the commercial payload due to go on board Ariane 5 Flight 135. The exact launch time is not yet known. Phase 3D has passed all of its pre-launch inspections, testing and preparation. This will be the largest Amateur Radio payload ever put into space. After Phase 3D is in its intended orbit, it's expected to be a few months before it is ready for amateur use. For more information, visit the AMSAT-NA Web site at www.amsat.org/

DX News

KARS will be operating a special event station to commemorate the extinguishing of the last burning oil well in Kuwait after the Gulf War. Using the callsign 9K2LOW (Last Oil Well). The station will operate on all bands and modes during the 4th, 5th and 6th of November.

The K5K (Kingman Reef) DXpedition is currently underway and will continue into next week. A German DXpedition to Eritrea is currently underway using the callsign E30TA.
